### 4.0 General Discussion

Brian Cook- Chess Club- Sign up, fill out a Google Form about kid's skill level, posted the roster of kids selected, how did we pick these 40 kids out of 70. Gave teachers a behavior management form and students who scored a 5 or above in 4th and 5th grade. They took 3rd grade students of siblings. Very poorly handled and would think as a group, what is the selection criteria, rotate every other week or fall to spring. Can we make a session type format where all students are able to experience the club? Brian Cook would like a discussion item added for the next meeting on October 6th.

Shannan Ohlson- Is there a CCSD code of conduct for participating in afterschool activities?

Robert Hollowood- I am shocked there is not a policy for all school levels regarding afterschool activities.
